

LEVIA

Inspired by the combination of lightness, sculptural and dynamism, in the LEVIA collection - light in Latin - the designers were guided by the desire to convey the concepts of strength and softness.

The presence of hard, sculpted surfaces and soft materials gives a pleasant perception of solidity and lightness at the same time.

The Levia collection brings us a feeling of softness, versatility and design.

360° rotation system with concrete basis under patent.

Continuous up down lifting system of the crank(Patented) for any height up to 2.5m

Replaceable and washable covers
 100 % polyacrylic approx. 300 g/m2 (spun dyed)
